

Public Statement

Serving our customers is our highest priority. As concerns develop and evolve with COVID-19 (the novel coronavirus), we are closely monitoring the situation and its potential impact on our operations. Be assured, we have plans in place to continue serving our customers should the situation worsen. First National Bank maintains a robust business continuity program, including a pandemic plan.

As part of this program, staff from First National Bank are monitoring the situation daily and working through “what if” situations. This process helps us assess current conditions and the need to implement portions of our plans to assure our preparedness to meet the financial needs of our customers.

We are closely following the recommendations made by the public health authorities as well as taking additional measures specific to our First National Bank services. Our bank lobbies and drive-thrus are currently open to serve you. Although we love seeing our customers, we want to strongly encourage you to use the options listed below as an alternative to entering our lobbies. This is especially true if you are sick or if flu symptoms are starting to appear.

We encourage you to use the following options for your banking needs (all of these products are described in more detail on our website at www.fnbbanking.com under the electronic/online banking or mobile banking tabs):

FOSSTON DRIVE-THRU BAGLEY DRIVE-THRU and WALK UP WINDOW
